Profile

Webb-India Private Ltd. is a joint venture company formed between Jervis B. Webb International Company (Farmington Hills, MI, USA) and Vinar Systems Limited (Kolkata, India). Jervis B. Webb Company is one of the largest material handling system integrator and manufacturer with manufacturing facilities not only in India, but also in the United States, China, and Canada. Complete integrated solutions from concept to completion are offered to meet the material handling needs of any industry.

Vinar Systems, Ltd. has been a supplier of storage and material handling systems in India since 1970. Vinar has completed over 4000 conveyor installations with customers in automotive manufacturing, appliance manufacturing and various other industries.

Through this joint venture, Webb-India Private Ltd. offers efficient and cost effective solutions by integrating different types of conveyor systems.

We have regional sales offices strategically located in major business and industrial centers throughout India.

Webb India Private Ltd. is able to provide world class solutions for a wide variety of applications.
